DUMMY PDF

Test document for a metadata cleaner

This file is a test fixture for metadata cleaners. It carries fake metadata in several places of the PDF structure: the Info dictionary, the document XMP packet, a page-level XMP packet, an annotation and private application data.

Everything listed below is hidden metadata that a good cleaner should remove. This list is ordinary page content, so it stays visible after cleaning: use it as a checklist against the cleaner's report or against exiftool -a -G1.

1. Document Info dictionary (trailer /Info)

Title	Ultra Top Secret Master Plan for Intergalactic Defense
Author	Tony Stark; Nick Fury; Pepper Potts
Subject	Avengers Protocol Level Omega - Government of the Universe
Keywords	Avengers, Stark Industries, S.H.I.E.L.D., Tesseract, Infinity Stones, Vibranium, CLASSIFIED
